

2017 Annual Report

Hancock Center is a unique non-profit organization in downtown Madison, WI. The Center provides dance / movement therapy services and heal and wellness education on-site and in the community.

Dance/Movement Therapy (DMT) is an innovative form of psychotherapy which works with the whole person integrating movement, creative process, and verbal communication. The connections of the body and mind is the basis of DMT, which aims to further self-expression, healing, personal growth, and the treatment of physical, neurological, and social issues.

MISSION

Hancock Center for Dance/Movement Therapy, Inc. improves the lives of others by providing body-centered, movement-based psychotherapy, education and outreach. It fulfills its mission by supporting the healthy potential of individuals of diverse ages, abilities and needs to enhance their lives. It is committed to serving the under-served and those who might not have access to or the ability to pay for therapy. Hancock Center is a supporting agency of the Marian Chace Foundation of the American Dance Therapy Association.

PROGRAMS AT HANCOCK CENTER

- Individual dance/movement therapy sessions for adults, children and families
- Therapy groups for children with developmental differences
- Movement and socialization group for adults with developmental differences Typically sessions at HC are weekly and on-going throughout the year.

PROGRAMS IN THE COMMUNITY

- In-School Violence Prevention & Pro-Social Skills Training program for children and teachers in classrooms of nine Madison elementary and middle schools
- In-School therapy sessions for children in six Madison elementary schools and one Madison middle
- Trainings and in-services on the use of DMT-based work and on the In-School Violence Prevention curriculum
- Introductory presentations on dance/movement therapy to the general public
